

HOW TO SHARE BACKYARD FRUIT

A fruit tree can bear hundreds of pounds of fruit per year. This is much more than a family can eat in a season. If you have abundant trees that are not accessible to the public, consider sharing your fruit!

Put a fruit basket in front of your property, accessible to the public, with a sign inviting people to share.

You can download the endless orchard FREE FRUIT sign [here](#).

Map your fruit basket on the Endless Orchard [Map](#) (consider mapping your shared library too).
