

PARKWAY PLANTING IN YOUR CITY

Plant in the parkway in Los Angeles County.

If you live in another city, please share your process with us and we can post it here.

Fruit Trees allowed in parkways in Los Angeles:

http://clkrep.lacity.org/online/docs/2013/13-0478_rpt_boss_12-20-13.pdf

Note that it just says all "citrus" in general instead of a specific variety

Urban Forestry Division's permits page: <http://bsspermits.lacity.org>

It takes you to myla.311, which is the City's umbrella service page. This page also has an app version which people can download and fill out a permit application. It's the same process anyone has to go through for anything else-- trimming, planting, etc.

UFD encourages tree planting and wishes to process your request for a tree planting permit as quickly as possible. 'Our goal is to respond to tree planting permits within five work days.'
